Conserve Valet™ Smart USB Charging Station

A Home For All Your Mobile Devices

Use Energy Wisely

Save Energy, Reduce Clutter

A charger left plugged into the wall can still draw power - even when no device is attached. The Conserve Valet Smart USB Charging Station charges up to four devices at once and shuts off automatically. The product itself draws zero power when not in use - so you can keep your devices ready to go without wasting energy.

Benefits

Charges Mobile Devices:
Charge up to 4 devices at the same time.

Frees Up Wall Sockets:
Replace up to 4 charging “bricks” with 1 clean power cord.

Saves Energy:
Automatically turns off after devices are fully charged.

Designated Charging Spot:
Always know where your mobile devices are and that they are fully charged.

Eliminates Standby Power:
Doesn’t power until you hit the start button; automatically turns off when you unplug all your devices.

Reduces Clutter:
Innovative storage area to hide messy cords.

Includes 2 Cables:
A USB to mini-USB cable and a USB to micro-USB cable are included.
